Contents

No. 1 (February 1995)

Special Article. A review of the possible mechanisms for the persistence of foot-and-mouth disease virus
Woodbury, E. L. 1

Direct milk excretion of *Campylobacter jejuni* in a dairy cow causing cases of human enteritis
Orr, K. E., Lightfoot, N. F., Sisson, P. R., Harkis, B. A., Tweddle, J. L., Boyd, P., Carroll, A., Jackson, C. J., Wareing, D. R. A. and Freeman, R. 15

The distribution of serotype-specific plasmids among different subgroups of strains of *Salmonella enterica* serotype Enteritidis: characterization of molecular variants by restriction enzyme fragmentation patterns
Rankin, S. C., Benson, C. E. and Platt, D. J. 25

Typhoid fever from water desalinized using reverse osmosis
Al-Qarawi, S. M., El Bushra, H. E., Fontaine, R. E., Bubshait, S. A. and El Tantawy, N. A. 41

Molecular characterization and antibiotic susceptibility of *Vibrio cholerae* non-O1
Dalsgaard, A., Serichantalergs, O., Pitarangsi, C. and Echeverria, P. 51

Distribution and virulence of *Vibrio cholerae* belonging to serogroups other than O1 and O139: A nationwide survey
Mukhopadhyay, A. K., Saha, P. K., Garg, S., Bhattacharya, S. K., Shimada, T., Takeda, T., Takeda, Y. and Balakrish Nair, G. 65

***Vibrio cholerae* O139 in Thailand in 1994**
Bodhidatta, L., Echeverria, P., Hoge, C. W., Pitarangsi, C., Serichantalergs, O., Henprasert-Tae, N., Harikul, S. and Kitpoka, P. 71

Meningococcal meningitis and carriage in western Zaire: A hypoendemic zone related to climate?
Cheesbrough, J. S., Morse, A. P. and Green, S. D. R. 75

Incidence and spread of *Haemophilus influenzae* on an Antarctic base determined using the polymerase chain reaction
Hobson, R. P., Williams, A., Rawal, K., Pennington, T. H. and Forbes, K. J. 93

Urinary isolates of apramycin-resistant *Escherichia coli* and *Klebsiella pneumoniae* from Dublin
Johnson, A. P., Malde, M., Woodford, N., Cunney, R. J. and Smyth, E. G. 105

Clonal diffusion of EPEC-like *Escherichia coli* from rabbits as detected by ribotyping and random amplified polymorphic DNA assays
Leroy-Setrin, S., Lesage, M. C., Chaslus-Dancla, E. and Lafont, J. P. 113

Molecular typing of *Acinetobacter baumannii–Acinetobacter calcoaceticus* complex isolates from endemic and epidemic nosocomial infections
Ratto, P., Sordelli, D. O., Abeleira, E., Torrero, M. and Catalano, M. 123

Host-microflora interaction in systemic lupus erythematosus (SLE): circulating antibodies to the indigenous bacteria of the intestinal tract
Apperloo-Renkema, H. Z., Bootsma, H., Mulder, B. I., Kallenberg, C. G. M. and van der Waaij, D. 133

A comparative study of food retail premises by means of visual inspection and microbiological quality of food
Powell, S. C. and Attwell, R. W. 143

Population genetics of *Mycobacterium tuberculosis* complex in Scotland analysed by pulsed-field gel electrophoresis
Olson, E. S., Forbes, K. J., Watt, B. and Pennington, T. H. 153

DNA typing of epidemiologically-related isolates of *Aspergillus fumigatus*
Birch, M., Nolard, N., Shankland, G. S. and Denning, D. W. 161

Genotypic evaluation of rickettsial isolates recovered from various species of ticks in Portugal
Bacellar, F., Regnery, R. L., Núncio, M. S. and Filipe, A. R. 169

The occurrence of *Mycobacterium bovis* infection in cattle in and around an area subject to extensive badger (*Meles meles*) control
Clifton-Hadley, R. S., Wilesmith, J. W., Richards, M. S., Upton, P. and Johnston, S. 179
Prevalence of *Leptospira* spp. in wild brown rats (*Rattus norvegicus*) on UK farms
Webster, J. P., Ellis, W. A. and Macdonald, D. W. 195
Genome variation in the SAT types of foot-and-mouth disease viruses prevalent in buffalo (*Syncerus* caffer) in the Kruger National Park and other regions of southern Africa, 1986–93
Vosloo, W., Kirkbride, E., Bengis, R. G., Keet, D. F. and Thompson, G. R. 203
An investigation of possible routes of transmission of lumpy skin disease virus (Neethling)
Carn, V. M. and Kitching, R. P. 219
Notes for Contributors

No. 2 (April 1995)

Phage conversion in *Salmonella enterica* serotype Enteritidis: implications for epidemiology
Rankin, S. and Platt, D. J. 227
Diversity and molecular variation among plasmids in *Salmonella enterica* serotype Dublin based on restriction enzyme fragmentation pattern analysis
Browning, L. M., Wray, C. and Platt, D. J. 237
Epidemic cholera in rural El Salvador: risk factors in a region covered by a cholera prevention campaign
Quick, R. E., Thompson, B. L., Zuniga, A., Dominguez, G., De Brizuela, E. L., De Palma, O., Almeida, S., Valencia, A., Ries, A. A., Bean, N. H. and Blake, P. A. 249
Allelic variation in the *Helicobacter pylori* flagellin genes *fla*A and *fla*B: its consequences for strain typing schemes and population structure
Forbes, K. J., Fang, Z. and Pennington, T. H. 257
Potable water and nosocomial Legionnaires' disease–check water from all rooms in which patient has stayed
Marrie, T. J., Johnson, W., Tyler, S., Bezanson, G., Haldane, D., Burbridge, S. and Joly, J. 267
A pilot study of infectious intestinal disease in England
Roderick, P., Wheeler, J., Cowden, J., Sockett, P., Skinner, R., Mortimer, P., Rowe, B. and Rodriques, L. 277
Illness in a community associated with an episode of water contamination with sewage
Fogarty, J., Thornton, L., Hayes, C., Laffoy, M., O'Flanagan, D., Devlin, J. and Corcoran, R. 289
Cutaneous leishmaniasis in the Peruvian Andes: an epidemiological study of infection and immunity
Davies, C. R., Llanos-Cuentas, E. A., Pyke, S. D. M. and Dye, C. 297
Predicting the impact of measles vaccination in England and Wales: model validation and analysis of policy options
Babad, H. R., Nokes, D. J., Gay, N. J., Miller, E., Morgan-Capner, P. and Anderson, R. M. 319
Epidemiology of measles in Taiwan: dynamics of transmission and timeliness of reporting during an epidemic in 1988–9
Lee, M. S., King, C. C., Chen, C. J., Yang, S. Y. and Ho, M. S.. 345
The effect of CMV infection on progression of human immunodeficiency virus disease in a cohort of haemophilic men followed for up to 13 years from seroconversion
Sabin, C. A., Phillips, A. N., Lee, C. A., Janossy, G., Emery, V. and Griffiths, P. D. 361
Hantavirus infections in The Netherlands: epidemiology and disease
Groen, J., Gerding, M. N., Jordans, J. G. M., Clement, J. P., Nieuwenhuijs, J. H. M. and Osterhaus, A. D. M. E. 373
Prevalence of human astrovirus serotype 4: capsid protein sequence and comparison with other strains
Willcocks, M. M., Kurtz, J. B., Lee, T. W. and Carter, M. J. 385
Book Review
Foundations of Epidemiology, 3rd Edition 393

No. 3 (JUNE 1995)

Epidemiology of *Pseudomonas aeruginosa* keratitis in contact lens wearers
Stapleton, F., Dart, J. K. G., Seal, D. V. and Matheson, M. 395
Correlation of change in phage type with pulsed field profile and 16S *rrn* profile in *Salmonella enteritidis* phage types 4, 7 and 9a
Powell, N. G., Threlfall, E. J., Chart, H., Schofield, S. L. and Rowe, B. 403
Epidemiology of *Campylobacter* spp. at two Dutch broiler farms
Jacobs-Reitsma, W. F., Van de Giessen, A. W., Bolder, N. M. and Mulder, R. W. A. W. 413
Restriction fragment length polymorphisms among the flagellar genes of the Lior heat-labile serogroup reference strains and field strains of *Campylobacter jejuni* and *C. coli*
Burnens, A. P., Wagner, J., Lior, H., Nicolet, J. and Frey, J. 423
Sporadic isolates of *Escherichia coli* O157.H7 investigated by pyrolysis mass spectrometry
Freeman, R., Sisson, P. R., Jenkins, D. R., Ward, A. C., Lightfoot, N. F. and O'Brien, S. J. 433
Verotoxinogenic *Citrobacter freundii* associated with severe gastroenteritis and cases of haemolytic uraemic syndrome in a nursery school: green butter as the infection source
Tschäpe, H., Prager, R., Streckel, W., Fruth, A., Tietze, E. and Böhme, G. 441
The epidemiology of *Haemophilus influenzae* type b disease in the Republic of Ireland
Fogarty, J., Moloney, A. C. and Newell, J. B. 451
High prevalence of antibodies to *Chlamydia pneumoniae*; determinants of IgG and IgA seropositivity among Jerusalem residents
Paltiel, O., Kark, J. D., Leinonen, M. and Saikku, P. 465
Feasibility study for identifying adverse events attributable to vaccination by record linkage
Nash, J. Q., Chandrakumar, M., Farrington, C. P., Williamson, S. and Miller, E. 475
Isolation of epidemic poliovirus from sewage during the 1992–3 type 3 outbreak in the Netherlands
Van der Avoort, H. G. A. M., Reimerink, J. H. J., Ras, A., Mulders, M. N. and Van Loon, A. M. 481
Sequence variation in the haemagglutinin-neuraminidase gene of human parainfluenza virus type 3 isolates in the UK
Collins, K. R. and Easton, A. J. 493
Serosurvey and laboratory diagnosis of imported sandfly fever virus, serotype Toscana, infection in Germany
Schwarz, T. F., Jäger, G., Gilch, S. and Pauli, C. 501
Serological studies of influenza viruses in pigs in Great Britain 1991–2
Brown, I. H., Harris, P. A. and Alexandra, D. J. 511
Book Reviews
Leprosy 521
Rabies in Bats: Natural History and Public Health Implications 522
Principles of Exposure Measurement in Epidemiology 522
Erratum: The epidemiology of bat rabies in New York State, 1988–92, by Childs, J. E., Trimarchi, C. V. and Krebs, J. W. 525
Indexes 527
